**SCHOOL OF SCIENCE**
Strategic Plan
2006-2012

**Strategic Aspiration –**
Provide premiere academic programs and transformational experiences in the sciences that intentionally educate students to become accomplished and engaged learners.

- Develop and continuously improve an infrastructure to support the School of Science's strategic aspirations.
- Strengthen and continuously improve academic programs that routinely and comprehensively employ pedagogies of engagement.
- Strengthen and continuously improve academic programs that challenge students to become intentional learners and integrative thinkers.
- Strengthen and develop connections with internal and external stakeholders.

**Strategic Aspiration –**
Provide an academic climate and culture that recruits, retains, and supports the development of faculty as accomplished and engaged teacher-scholars.

- Develop and continuously improve a sense of community and shared vision within the School of Science.
- Strengthen and continuously improve the shift in faculty culture to the teacher-scholar model.
- Increase awareness of the importance of grant-writing, with the goal of creating opportunities and increasing intellectual vitality.
- Strengthen and continuously improve the culture for adjunct faculty.
